

APPLICATION DATA SHEET

BLACKFAST 500 SURFACTANT BLEND

USE: Use as supplied.

APPLICATION: When added at 10% to Hydrochloric Acid pickling tanks, Blackfast 500 assists in the removal of oil, grease and hydrophobic products which are released from metal surface during the pickling operation. Blackfast 500 increases the water washability enabling subsequent important stages of water rinsing to be more efficient.

PRODUCT SAFETY

DATA SHEET: A safety data sheet is available.

Blackfast 500 is part of the Blackfast range of products for the treatment of iron, steel and aluminium at low temperatures.

Blackfast Chemicals continues to improve the quality and performance of its range of products and reserves the right to modify product formulations without prior notice.
